Data Entry Header Tabs

- [Planned](#)
- [Resolved](#)
- [Dispositioned](#)
- [Forwarded](#)
- [Deferred](#)
- [History](#)

Record Information:

- Record ID
- [Pipeline Position](#)
- Status
- Overage Status

NOTE: "Overage Status" information tracks the records' age and displays when the record has a DCAA Audit Report Number.

NOTE: "[Status](#)" tracks the records status for reporting purposes. For more information refer to the "[Additional Field Information](#)" section below.

Planned Tab

The Planned tab displays when the record is in the **Planned Pipeline** and the **Target Resolution Date** and **Target Disposition Date** fields have values. The CAS Edit Record screen displays and information for the CAS record is entered below. All tabs are accessible throughout the data entry process and not all fields display; changing the answers may change the displayed fields.

*NOTE: To save current work click the "**Submit**" button. The record **does not** progress through the workflow until certain fields have been entered. For more information see the sections "Moving On" below.*

Record Return

If a Record requires changes from the AT-AT - Monitor, return it by moving it back to the **Assigned** pipeline position.

To return the record, under the **Record Details** section remove the date(s) from the **Target Resolution Date**, **Target Disposition Date**, and **Actual Resolution Date** fields if entered and click the Submit button.

NOTE: A user may need to search for another record to assist with data entry

Moving On

Click the **Submit** button to save/submit all edits made on the record. Otherwise, continue on by selecting the appropriate tab located in the record header. Moving the record through the pipeline positions requires specific fields to be entered; for more information refer to the “**How to Move from Deferred Back to**” section below.

How to Move from Deferred Back to

Planned Pipeline Position

Under the **Record Details** section enter the date into the **Deferred Status Removed Date** field and click the **Submit** button.

Resolved Pipeline Position

Under the **Record Details** section enter the date into the **Deferred Status Removed Date** field and click the **Submit** button.

Dispositioned Pipeline Position

Under the **Record Details** section enter the date into the **Deferred Status Removed Date** field and click the **Submit** button.

History Tab

The History tab displays all actions taken on the record, separated by role and action. Select the History tab to view previous actions on the record. The History tab updates on submit.

History tab entries:

- Name of User Conducting Action
- User Title
- User Email
- User Commercial Telephone
- User DSN Telephone
- Action Date
- Action
- Pipeline Position
- Report Number
- DUNS
- UEI
- Remarks
- Modifications

Once the user is finished within the History tab, they may either submit the record by selecting the “Submit” button at the bottom of the page or move back to any of the previous pages by selecting the tab; refer to the records pipeline position located within the header for a reference on which tab should be selected.

Selecting the “**Submit**” button, successfully, displays a success screen with the record information, useful for locating the record later for additional data entry. Submitting the document saves all edits.

When the appropriate fields are filled out, the record is progressed to the next pipeline position. Refer to the **Moving On** sections for each pipeline tab for more information on the specific fields. The record is editable prior to **Closed**, if the record is closed it will need to be reopened for any additional edits to be made; refer to the **Closed** section for more information.

Record Submit

Information provided on the Success screen:

- Record ID
- Pipeline Position

Once a record has been completed and all the necessary actions have been taken, the record must be closed.

Closing a Record

To close a record, return to the **Forwarded pipeline** and indicate “**Yes**” in the **All CO Actions Completed?** Field and click the Submit button. The **Record Closed Date** will auto populate with the current date, and the record will **Close**.

Closed Records may be searched for and reopened within the next four years of the “**Record Closed Date**” value; otherwise, the record is moved to “**Archived**” and cannot be reopened.

Reopening a Record

For **AT-AT – Monitors**, **Regions/HQ Monitors**, and **Contracting Officers** looking to reopen a record, use the [search functionality](#) to find the closed record. Click the Record ID number hyperlink to open the record.

Click the **Reopen and Assign to Self** button and a pop-up confirmation displays with the message, “Are you sure you want to reopen this record”? Select “Confirm” to proceed with the process. The record will be **Reopened**, and the **Edit Record** screen displays. The record status will update to “**Reopened**”.

Reclose a Record

To close a reopened record, return to the **Forwarded pipeline** and indicate “**Yes**” in the **All CO Actions Completed?** field and click the **Submit** button. The **Record Closed Date** will auto populate with the current date, and the record will reclose. Reclosing a record restarts the four-year **Archive** timer.

Closed

Archived

Four years after the [Record Closed Date](#) has passed the record will automatically be archived by the system and the pipeline position updated to **Archived** from **Forwarded**.

After being archived, the record is accessible to users as a “read-only” document and is no longer able to be reopened.

Additional Information

Print Record

The [Print Records](#) button allows the user to export a record in Excel or PDF format.

For additional information on Print, check the AT-AT WBT [General Function](#) page.

Record Header

The **Status** field only displays for records that have a DCAA Audit Report Number. The **Status** reflects the age of the record and is auto calculated based on the scenarios outlined below.

1. The "Status" will reflect "OA" (Over Age) when:
 - a. The "Target Resolution Date" has been missed (>-24:00 hours than today's 00:00 GMT); until the "Actual Resolution Date" is populated, OR
 - b. The "Target Disposition Date" has been missed (>-24:00 hours than today's 00:00 GMT); until the "Actual Disposition Date" is populated or the action hits the six months and one day mark.
2. The "Status" will reflect "OA 6" (Over Age Six Months) when the "Target Disposition Date" is missed by more than six months, until
 - a. "Actual Disposition Date" is populated, OR
 - b. "Yes" is selected in the "All CO Actions Complete" data field.
3. The "Status" will reflect "OA 12" (Over Age Twelve Months) when the "Target Disposition Date" is missed by more than twelve months, until
 - a. "Actual Disposition Date" is populated, OR
 - b. "Yes" is selected in the "All CO Actions Complete" data field.
4. The "Status" will reflect "OA 18" (Over Age Eighteen Months) when the "Target Disposition Date" is missed by more than eighteen months, until

- a. "Actual Disposition Date" is populated, OR
 - b. "Yes" is selected in the "All CO Actions Complete" data field.
5. The "Status" will continue to track the "Target Disposition Date" at 6-month intervals (e.g. OA 24, OA 30, OA 36, etc.) until the
- a. "Actual Disposition Date" is populated, OR
 - b. "Yes" is selected in the "All CO Actions Complete" data field.

Status

A record created manually or via the flat file upload the read-only "Status" field will be auto-populated on all standard Records and SubRecords. The "Status" values will be: "Less than 6 months", "6 to 12 months", "Over 12 months", "Closed", "Deferred Litigation", or "Deferred Investigation" (designation depends on the following statements).

Scenario 1:

The record is not in a "Deferred Investigation", "Deferred Litigation", or "Closed" pipeline position. Then the read-only "Status" field will be auto-populated with an age category status and the age category status is calculated based on the "Report Date" field ("Less than 6 months", "6 to 12 months", "Over 12 months") in comparison to the user's system date (current date). For example, Report Date is 09/1/2023 and today is 3/11/2024, the difference between the dates is 6 months and 11 days, so the status would show "6 to 12 months".

Scenario 2:

The record is in the Deferred pipeline position (designated by a date in the "Deferred Status Date" field, but not one in the "Deferred Status Removed Date" field).

"Yes" is selected in the "In Litigation" field.

Then the read-only "Status" field will be auto-populated with "Deferred Litigation" status.

Scenario 3:

The record is in the Deferred pipeline position (designated by a date in the "Deferred Status Date" field, but not one in the "Deferred Status Removed Date" field).

"Yes" is selected in the "Criminal Investigation Involvement" field.

Then the read-only "Status" field will be auto-populated with "Deferred Investigation" status.

Scenario 4:

"Record Closed Date" has been populated.

**Additional
Field
Information**

Then the read-only "Status" field will be auto-populated with "Closed" status.

[DCAA Audit Report Number](#)

The following 5-digit activity codes located in the "DCAA Audit Report Number" after the letter (Positions 10-14; ex. 12345678S*11010*123)

[Target Resolution Date](#)

When 'Type of CAS' has "CAS Standard", or "Noncompliance" selected then the **Target Resolution Date** will auto-calculate on record creation **15 calendar days** from the date entered into the "Date Report Received" field.

OR

When **Type of CAS** has "Initial DS", "Revised DS", or "Cost Impact" selected then the **Target Resolution Date** will auto-calculate on record creation **six months** from the date entered into the "Date Report Received" data field.

[Target Disposition Date](#)

The **Target Disposition Date** will auto-calculate on record creation **12 months** from the date entered in the "Date Report Received" field.
